request for proposals
Immigration: Adult English Language Acquisition
Immigration: Adult English Language Acquisition

Introduction

Silicon Valley Community Foundation advances innovative philanthropic solutions to challenging problems. Two of these challenging problems – the successful integration of immigrants and the inability of receiving communities to understand and recognize immigrants as real and potential assets in the community rather than as liabilities – are addressed through our immigration strategy. To better understand our goals and objectives for this strategy, we encourage you to read the community foundation’s research paper on the topic at siliconvalleycf.org/immigrant-integration.org.

The immigration strategy has a two-pronged approach:

1) strengthening the legal services infrastructure, which seeks to address the need for affordable and reliable immigration legal services provided by nonprofit community organizations; and

2) adult English language acquisition, which seeks to promote English instruction, coordination and best practices among community colleges, adult education schools and community-based organizations.

This request for proposals, or RFP, focuses specifically on adult English language acquisition. By using an RFP approach, the community foundation aims to solicit the best thinking of nonprofit service providers, public sector agencies, research institutions and other entities serving San Mateo and Santa Clara counties.

Grant Application Deadline

The application process will open on August 24, 2015. Responses to this RFP must be submitted through our on-line application system, applySVCF, by 5 p.m. on Friday, September 25, 2015.
Problem Statement

Silicon Valley is a diverse region. More than one-third of the 2.5 million residents of San Mateo and Santa Clara counties are immigrants, and almost two-thirds of those younger than 18 are children of immigrants. Immigrant entrepreneurs have contributed considerably to innovation and job creation in Silicon Valley, and nearly half of our workforce is foreign-born. Our region’s continued prosperity and quality of life depend on our ability to create communities that recognize immigrants as assets and that honor shared values of family, hard work and opportunity for all.

This requires that we address the insufficient number of effective English-language learning, job training and legal services for immigrants. These services are not adequate to meet current need, let alone the potential future demand that would result from comprehensive immigration reform.

Program Goal

SVCF’s goal for this strategy is to address the demand for high-quality English language programs in our region. English is truly the language of opportunity for today’s immigrants: it opens the door to jobs that can pay family-sustaining wages and allows immigrants to fully participate in civic life, including the ability to vote in local, state and federal elections.

SVCF will award grants in two programs that improve English skills for adult immigrants – English as a Second Language and Vocational English as a Second Language, or ESL and VESL instruction. In light of limited state and federal funding, as well as strong demand for high-quality English language acquisition programs, SVCF will prioritize funding consideration for region-wide efforts that:

• coordinate among community college, adult education and nonprofit ESL and VESL programs;
• target instruction in our region to immigrants; and
• promote best practices and maximize funding sources.

While we recognize that there are many worthwhile institutions developing and running programs, SVCF will give priority to established English language skills partnerships and organizations that:

• Develop and maintain high-quality programs that bring together different community institutions – such as government, community colleges, nonprofit organizations and job-training programs with high employment potential – and result in expanded use of services, persistence in study and achievement by adult learners. Programs should also serve to strengthen the field of workforce development.

A key challenge to immigration is the inability of the receiving communities to understand and recognize immigrants as real and potential assets in the community rather than as liabilities.
• Integrate adult instructional systems and offer a range of VESL and ESL courses to address different language skill levels and learning goals using curricula that address topics related to students’ interest and lives.

• Expand and improve adult English language instruction through “anytime-anywhere” programs using onsite, blended and online new technologies that connect to the above-mentioned community institutions.

• Demonstrate clear understanding of how their proposed project advances their existing goals. This includes dedicating a specific amount of staff time to the project and having a clear plan for measuring its success.

SVCF will gauge success according to one or more of these indicators: increase in the number of immigrants gaining access to VESL and ESL courses; increased access to workforce development opportunities; assessment of English language acquisition, usage and context in which English is spoken.

Proposal Eligibility Criteria

• San Mateo and/or Santa Clara county-serving organizations. Organizations headquartered outside the two-county region must demonstrate significant service to the area.

• Organizations with a 501(c)(3) designation, those that have a fiscal sponsor with a 501(c)(3) designation, public agencies, collaborations of nonprofit and public agencies, or other entities that have a designated charitable purpose.

• Organizations that do not discriminate based on race, color, national origin, citizenship status, creed, religion, religious affiliation, age, gender, marital status, sexual orientation, gender identity, disability, veteran status or any other protected status under applicable law. If an organization only serves a specific population, e.g. women or specific ethnic populations, SVCF will consider the proposal on a case-by-case basis.

• Organizations with religious affiliations will be considered for funding only if the project for which they seek support attempts to address the needs of the wider community without regard to religious beliefs.

Project Proposal Characteristics

We are receptive to concrete, practical and impactful project proposals that:

• Include both well-tested models that can be scaled up or expanded regionally while maintaining local relevance, and new pilots that, if successful, can be grown and replicated.

• Benefit from collaborative work and bring public and private partners together with nonprofit organizations.

• Demonstrate knowledge of the sector and its trends.

• Identify the target population and provide justification for that focus.

• Provide clear benchmarks for measuring progress.
